CONTENT

Welcoming address by THEi representative

BA (Hons) in Landscape Architecture

Be a Landscape Architect: Miniature Model Making and VR Experience

Discussion Forum on Career Exploration in HK by THEi representative, employers and alumni

Experience the rapid design, creation and display skills of landscape architects, and make unique architectural models.

Non-JUPAS Pathways Talk by Hok Yau Club

BSc (Hons) in Horticulture Arboriculture and Landscape Management

How to become an arborist?

Visit to the Programme Booths and Entertainment Booths

Arborists, also known as "tree doctors", are professionals who care for trees and other woody plants. Experience the daily work of an arborist, such as using various machines for tree risk assessment, tree management and learning to identify plant diseases and pests using specimens.

THEi Taster Programme
(Please refer to the next page for more details)

The activities are mainly conducted in Cantonese.

PROGRAMME

WORKSHOP

BSc (Hons) in Information and Communications Technology

Hacker experience- Web Penetration

Under the guidance of instructor, participants will try and experience the practice of web penetration, on a learning purpose target web site. Participants will use various tools for the practice and learn the basic concept of cyber defense.

BSc(Hons) in Surveying

Drone Pilot X Surveyor

THEi Surveying taster activity will introduce the road to professional success in the construction and real estate industries, and professional surveyors will share with you how to apply drone in studying and work. Of course, there will be chance for you to try to fly a drone!

BA (Hons) in Culinary Arts and Management

Cantonese Dim Sum Hands-on Workshop - Har Gow (Shrimp Dumplings)

The workshop starts with a short Programme Introduction. Participants will get to learn the skills in making Shrimp Dumpling Dough, and wrapping the Shrimp Dumpling. The session will be taught by Dim Sum Master Chef Fung Kwok Sum.

PROGRAMME
